

MOHAMED AMINE OUHICHI

Industrial Maintenance Technician

✉ mohamedamine.ouhichi@gmail.com ☎ +974 30703520 📍 Doha qatar 🇹🇳 Tunisian

PROFILE

Highly skilled **Industrial Maintenance Technician** with a solid background in preventive and corrective maintenance across mechanical, electrical, and pneumatic systems. Proven track record in diagnosing complex faults and ensuring 99% equipment uptime in fast-paced industrial environments. Expertise in **Siemens/Schneider PLCs, Hydraulics, and CMMS**. Committed to strict **HSE (Health, Safety, and Environment)** and ISO standards.

PROFESSIONAL EXPERIENCE

Industrial Maintenance Technician

MATEM 09/2025 – 01/2026

Sfax Tunisia

- **Asset Reliability:** Execute preventive maintenance for high-speed production lines, reducing unplanned downtime by 15%
- **Fault Diagnosis:** Perform rapid repairs on complex electrical and pneumatic failures to ensure 24/7 process continuity.
- **Commissioning:** Lead the installation and calibration of new industrial machinery, ensuring compliance with technical specifications.
- **Reporting:** Utilize CMMS to document all interventions, maintaining a 100% accurate maintenance log.

Maintenance Technician

STE HAMMAMI ET FILS "PROPLAST" Sfax tunisia

- **System Optimization:** Adjusted and calibrated precision measuring instruments and automated motors, improving production accuracy.
- **Rapid Response:** Provided emergency technical support for automated systems, minimizing production bottlenecks.
- **Preventive Scheduling:** Managed the weekly maintenance schedule for over 20+ industrial units.

EDUCATION

Higher Technician Certificate (BTS) in Industrial Maintenance

Bach Hamba Vocational Training Center 2022 – 2025

Sfax Tunisia

Specialized Certificate: Hydraulics / Pneumatics / Mechatronics

Bosch Rexroth Licensed Training Center 2022 – 2025

Sfax Tunisia

Technical Baccalaureate

El-Tawfik Private School 2018 – 2022

Sfax Tunisia

SKILLS

Technical Skills (Hard Skills)

- **Industrial Maintenance:** Comprehensive expertise in Preventive, Corrective, and Curative maintenance.
- **Diagnostics:** Advanced troubleshooting of Electrical, Mechanical, Hydraulic, and Pneumatic failures.
- **Automation & Control:** Hands-on experience with **Siemens, Schneider, and Omron** PLCs and automated systems.
- **Technical Documentation:** Proficient in reading and interpreting complex electrical/mechanical plans and diagrams.
- **Mechanical Works:** Skilled in industrial welding, precision fitting, and mechanical assembly.
- **Digital Tools:** Advanced use of **CMMS** (Computerized Maintenance Management Systems) for asset tracking and reporting.
- **Safety & Compliance:** Strict adherence to **Industrial Safety** protocols and **ISO Standards** (Quality and Safety)

Soft Skills (Personal Qualities)

- **Analytical Thinking:** Strong capacity for root cause analysis and rapid technical problem-solving.
- **Reactivity & Resilience:** Proven ability to work under pressure and provide rapid interventions to minimize downtime.
- **Precision & Organization:** Detail-oriented approach to maintenance tasks and technical reporting.
- **Team Collaboration:** Effective team player with excellent communication skills in multi-technical environments.
- **Safety-First Mindset:** Uncompromising commitment to workplace safety and compliance with all operational instructions

INTERESTS & PROFESSIONAL GROWTH

- Continuous training in **Industrial Automation** and **Robotics**.
- Passionate about emerging **Industrial Technologies** and mechanical innovation.
