PROFESSIONAL SUMMARY

Experienced Technical Professional with a solid background in both HVAC Systems and Electrical Engineering (Control). Offers over 11 years of field experience in oilfield environments with Harouge Oil Operations. Proven expertise in installing and maintaining split A/C systems, industrial freezers, and performing electrical troubleshooting.

WORK EXPERIENCE

Junior Oilfield Electrician 2025 – 2026

Harouge Oil Operations | Oilfield, Libya

- Performed routine and corrective electrical maintenance within the oilfield environment.
- Inspected and monitored electrical control panels to ensure steady operations and prevent downtime.
- Assisted in diagnosing and troubleshooting electrical faults on various industrial machinery.

HVAC Technician 2014 – 2025

Harouge Oil Operations | Oilfield, Libya

- Handled comprehensive installation, maintenance, and repair of Split A/C systems.
- Maintained industrial freezing chambers and cold storage units for food preservation.
- Performed leak detection, gas charging, and high-quality Oxy-Acetylene welding precision.

EDUCATION

Bachelor's Degree in Electrical Engineering (Control) Graduation: 2022

College of Electronic Technology Janzour | Libya

Intermediate Diploma in Oil Industries (HVAC) Graduation: 2013

Petroleum Training Quality Institute (PTQI) Tripoli | Libya

TRAINING COURSES

Technique & Engineering Development Course (2 Weeks) 2026

Olla Training Center | Turkey

Microsoft IT Skills Certificate 2013

Cambridge Assessment International Education

TECHNICAL & CORE SKILLS

- HVAC & Cooling:** Split Systems Repair, Industrial Freezers Maintenance, Leak Detection, Gas Recharging.
- Electrical & Control:** Control Panel Troubleshooting, Technical Blueprint Reading, Component Replacement.
- Mechanical & Welding:** Excellent Oxy-Acetylene Welding, General Mechanics, Auto Mechanics.

LANGUAGES

Arabic: Native Language. | **English:** Intermediate (Good command of technical terms and equipment manuals).
