  - MV/LV Electrical Systems & Distribution
  - Electrical Installations & Commissioning
  - Cable Pulling, Glanding, Termination & Testing
  - Electrical Panel Wiring & Troubleshooting
  - Kahramaa Inspection Coordination
  - QHSE Standards Compliance & Site Safety
  - Supervision of Multidisciplinary Teams
  - IFC / Shop Drawing Review & Execution
  - Site Reports & Documentation
  - Material, Manpower & Tools Planning
- 

### PROFESSIONAL EXPERIENCE

#### Innovation Renewable Energy – KAHRAMAA Projects

##### *Electrical Supervisor*

📍 Doha, Qatar | **2023 – Present**

- Function as **PTW/LOA holder** for electrical works in Kahramaa projects, ensuring safe and authorized access to live networks and substations.
- Lead execution of MV/LV electrical installations in compliance with KAHRAMAA's stringent standards.
- Supervise teams for **cable pulling, termination, glanding, and megger testing** across project locations.
- Review technical drawings, assess site readiness, and provide work permits and switching documentation in coordination with the safety department.
- Coordinate with Kahramaa inspectors for **site inspections, defect clearance, and energization approvals**.
- Ensure worksite compliance with **QHSE protocols**, conducting daily safety toolbox talks and site audits.
- Oversee material requisitions, manpower distribution, and ensure timely completion of critical project milestones.

- Liaise with consultants, contractors, and QA/QC teams to resolve technical issues and align on deliverables.

### **Matrix International (Fan Festival – Al Bidda Park)**

#### *Electrical Supervisor*

📍 Doha, Qatar | **2021 – 2022**

- Supervised installation, maintenance, and breakdown response for electrical systems during the **FIFA Fan Festival** in Qatar.
- Managed teams for power distribution, lighting systems, and event-specific temporary power setups.
- Ensured continuous power supply with effective troubleshooting and backup planning.
- Collaborated with event managers and venue engineers to meet high safety and reliability standards.

### **Global Haulage Co. Ltd – Ecobank Housing Project**

#### *Electrician*

📍 Accra, Ghana | **2015 – 2021**

- Carried out end-to-end electrical installation on residential and commercial buildings.
- Assisted in switchgear installation, power distribution wiring, and lighting systems setup.
- Conducted insulation resistance and continuity testing prior to handover.
- Adhered to safety regulations and collaborated with civil teams during infrastructure rollout.
